- AWS MAP Partner
- AWS MSP Partner
- Amazon EKS Delivery

- Do you need **AWS experts** to help you migrate workloads to AWS?
- Do you prefer a **fixed-price, prescriptive, end-to-end rehost, and replatform migration** to AWS?
- Do you recognize that migration is a journey and that your lift-and-shift migration should be designed with **future requirements for modernization and MSP?**

Accelerating Your Journey to the Cloud

AWS's experience migrating thousands of customers to the cloud has created **best practices, expertise, tooling, and financial incentives to make cloud adoption easier.**

AWS and nClouds have partnered to offer Rapid Migration to help you **achieve cloud benefits sooner**—with end-to-end, fixed-price rehost and replatform migration. Rapid Migration moves your workloads to AWS with speed and predictability.

** AWS Rapid Migration is eligible for AWS-provided financing, paid in 12 equal installments (see AWS for full details).*

Migration Is the First Step in Your Modernization

To leverage the full power of AWS, some workloads will require going beyond lift-and-shift migration. **Modernization can help you deliver cost optimization, a platform for innovation, scalability, and business agility**—the requisite foundation for your digital transformation.

Given nClouds' AWS modernization expertise, we can provide critical guidance while executing Rapid Migration to help you achieve modernization readiness and get well architected. Ultimately, you want the most cost-effective and scalable architecture for each workload, including best practices for containerization and serverless.

nClouds is a certified, award-winning provider of AWS and DevOps consulting and implementation services. We partner with our customers, as extensions of their teams, to build and manage modern infrastructure solutions that deliver innovation faster. We leap beyond the status quo.
